On motion of Councilor Young, Joseph Busby was elected Foreman.

On motion of Councilor Carrington, Joseph Young was elected Chaplain.

The requisite oath of office was then administered to the Secretary and the other officers present.

The President declared the Council fully organized, and ready to proceed to business, and notified the House accordingly.

Mr. Rockwood, on behalf of a committee from the House, notified the Council that the House was organized, and ready to proceed to business.

The President appointed Councilors Harrington and Benson a committee to act with a like committee from the House, to wait upon His Excellency Gov. Doty, to ascertain if he had any communications to make to the Assembly.

The following message was received from the House:

"December 12, 1864.

The House of Representatives have agreed to meet the Council, in joint session, as soon as it meets your convenience.

Respectfully,

JOHN TAYLOR, Speaker."

Council went into joint session.

[See Joint Session Minutes.]

On the joint session dissolving, the Council again resumed its session.

Roll called. Quorum present.

GOVERNOR'S MESSAGE.

EXECUTIVE OFFICE, UTAH TERRITORY,
Great Salt Lake City, Dec. 12, 1864. }

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY:

The assembling of the Legislature of a country which is governed by a written constitution and laws, is an event of great interest to all of its inhabitants. It is then that the actual condition of the State is to be investigated, and such provisions adopted as will secure to every individual his just and equal rights, and promote the general welfare.

Congress, representing the sovereignty of the United States, exercises over a Territory the combined powers of the General and of a State government. It legislates for the people of the United States; and specially for those of a Territory. It confers on a Territorial Legislature a portion only of its powers—reserving to itself the right to enact special laws, and to disapprove of any Act passed by a Territorial Legislature.

The Legislative power and authority of this Territory is vested in the Governor and Legislative Assembly. It extends to all rightful subjects of legislation, consistent with the Constitution of the United States, the provisions of the Act establishing this Government, and other laws of the United States. It is declared in the Organic Act that the Constitution and laws of the United States are extended over, and to be in force in the Territory of Utah, so far as the same, for any provision thereof, may be applicable.

It becomes our duty, therefore, under these limitations, to enact such laws as are necessary and suitable to the circumstances of the Territory.

The general laws now in force appear, from the examinations heretofore given them by my predecessors, and by the judiciary, to require amendment in several of their provisions.

To you, gentlemen, is particularly referred those local subjects of legislation which, it is presumed, you are personally acquainted from your place of residence, from your own observation, or in regard to which you may have received accurate information.

The erection of bridges over the rivers on the main thoroughfare; the grading of roads through the canyons; and the construction of canals for irrigation, by which the now waste lands in the valleys of Bear river, Weber, Jordan and Sevier, may be brought into cultivation and rendered productive, I respectfully commend to your consideration. Indeed, grants of land to be regained by irrigation, or made habitable by these canals, may, with propriety, be solicited of Congress to aid in their construction, and there is no doubt that a Memorial to that body for this object, would receive attention, and the appropriation be made.

But excessive legislation, I think, is to be avoided as one of the greatest evils with which a community can be afflicted. Numerous laws, or complicated systems, frequent and sudden changes are dangerous to private rights, and to the liberties of the people. The freest country with a constitutional government is that which is governed by the fewest legislative enactments.

I congratulate you upon the discovery of coal, iron, lead, copper, and of the precious metals, which have been made during the past year in the western, eastern and southern sections of the Territory; and also upon the new settlements which have been formed in their vicinity. While we cannot but regard Agriculture as the first and most important interest in this country, and, therefore, entitled to every encouragement which can be bestowed by Government, the mines—valuable on their own account—may also be considered tributary to that interest, and their development worthy of the attention of the Legislature, and of every citizen who desires to increase the wealth and promote the prosperity of the Territory.

The peaceable and friendly conduct of the Indians towards our citizens and the travelers through every section of the Territory, since the Treaties which were concluded with them in the year 1863—so different from that of former years—cannot be too highly appreciated and commended. To you, gentlemen, is particularly referred those local subjects of legislation which, it is presumed, you are personally acquainted from your place of residence, from your own observation, or in regard to which you may have received accurate information.

The erection of bridges over the rivers on the main thoroughfare; the grading of roads through the canyons; and the construction of canals for irrigation, by which the new waste lands in the valleys of Bear river, Weber, Jordan and Sevier, may be brought into cultivation and rendered productive, I respectfully commend to your consideration. But excessive legislation, I think, is to be avoided as one of the greatest evils with which a community can be afflicted. Numerous laws, or complicated systems, frequent and sudden changes are dangerous to private rights, and to the liberties of the people. The freest country with a constitutional government is that which is governed by the fewest legislative enactments.

I congratulate you upon the discovery of coal, iron, lead, copper, and of the precious metals, which have been made during the past year in the western, eastern and southern sections of the Territory; and also upon the new settlements which have been formed in their vicinity. While we cannot but regard Agriculture as the first and most important interest in this country, and, therefore, entitled to every encouragement which can be bestowed by Government, the mines—valuable on their own account—may also be considered tributary to that interest, and their development worthy of the attention of the Legislature, and of every citizen who desires to increase the wealth and promote the prosperity of the Territory.

The peaceable and friendly conduct of the Indians towards our citizens and the travelers through every section of the Territory, since the Treaties which were concluded with them in the year 1863—so different from that of former years—cannot be too highly appreciated and commended. These are the first Treaties ever made by the Uni-

ted States with the bands of Shoshonees; and it is somewhat remarkable that they have adhered to their stipulations with a fidelity equal to that of most civilized nations.

It is considered, however, that we are chiefly indebted to the presence and efficiency of the United States' troops, and signal defeat of Bear Hunter and his allies by them, for the first manifestation of a friendly spirit, and that, in fact, we have no security for their faithful compliance with the stipulations of their Treaties—nor with those which may be formed with other tribes in these mountains, but in the continued military occupation of the most eligible sites for the protection of the people in every part of the Territory: an occupation which it seems is equally demanded for the security of the life and property of the peaceable citizen and traveler against the brigand attacks and depredations of white men.

It is provided in those Treaties that the President of the United States may, at any time, make Reservations of such districts of the country of the Shoshonee nation, as he may deem eligible for the use of these bands.

It would be of great advantage to our citizens and to the Indians, if the Reservations were designated soon, and these bands induced to become permanently located upon them.

I recommend the adoption of a Memorial to the President and to Congress, expressing your views on the subject, and asking for an appropriation to enable him to carry these Treaties into effect.

The operation of these Treaties with the Indians of the north has been so beneficial to them and to our citizens, that we cannot but anticipate the same from Treaties with those of the south. The road from Great Salt Lake City—the true capital of Utah, for here are its wealth and intelligence concentrated—to Arizona and Southern California, must become one of the principal thoroughfares through the Territory, and the preferred route of a railway to navigable waters.

The most convenient outlet for the productions of the Great Basin to the Pacific Ocean appears to be by this route and the Colorado. This river is now navigated with several steamboats from the Gulf of California to a point very near our southern boundary; and if amicable relations are established with the Indians through whose country the road passes, and with those inhabiting the banks of that stream, we may expect to see a large commercial town built at the head of navigation, where the trade of Utah will have its depot, and our enterprising merchants their warehouses filled with the rich products of these valleys and of the Indies.

It is understood a bill, containing an appropriation for treaties with the Utah Nation, passed one of the Houses of Congress at its last session; and I shall be glad of the opportunity to unite with you in a memorial for the passage of the bill by the other House, and for its approval by the President.

Under a proper system, there is no doubt many of the individuals of these bands may, in a short time, become herdsmen or agriculturists; and a residence by white men in the valleys of these mountains rendered thereby safe from their hostilities and depredations.

In connection with this subject of the opening of the communication with the Colorado and the establishing new settlements upon its borders, it has occurred to me that it would be of great advantage to all engaged in those enterprises if the jurisdiction of this Territory was extended over that region, where now there is none. If you should concur in the importance of this measure to the people and to the Government, I would respectfully invite you to unite with me in a Memorial to Congress to add to Utah, for temporary purposes of government, that portion of the Territory of Arizona, which is situated north and west of Colorado river.

Schools, and the means of education, ought to be provided in every settlement in the Territory. Without this is done, the mass of the people will soon become grossly ignorant, the abject slaves of wealth and power, and the miserable dupes of every charlatan in religion or in politics. To your wisdom I commend this most important subject for legislation; and sincerely hope a system may be devised by which all the children of a proper age in the Territory, may within the the ensuing year be counted in private or public schools.

The annual reports of the Treasurer and Auditor are presented to you for your information.

The application of the people of this Territory for admission into the Union as a State, is yet pending before Congress; and it is hoped it may receive the favorable action of that body, either by the admission of the State on an equal footing with the original States, or the passage of an act to enable the people to form a Constitution and State Government.

And I beg to assure you, gentlemen, that I shall cordially co-operate with you in the adoption of such measures as you may propose, which are calculated to enlighten the people, protect their rights of person and property, secure to them their civil and religious freedom, or advance their prosperity and happiness.

JAMES DUANE DOTY

AUDITOR'S REPORT.

**TO HIS EXCELLENCY, J. D. DOTY,
GOVERNOR,**

DEAR SIR:—My annual report as Auditor of Public Accounts has been delayed to this late day to give time for County collectors to make settlement with the Treasurer, the majority of whom are late with their assessments, and, in fact, there are five counties from which the returns of assessment for 1864 have not been received at the present writing. I have reason to believe that this apparent neglect arises chiefly from a change of County clerks, who have not yet become fully acquainted with the duties of their office.

By the accompanying statement of amount of property assessed for the year 1864, it is shown that the total amount is six millions, six hundred and ninety-six thousand and four dollars, the tax on same at one-half of one per cent. gives a gross revenue for the current year, of	\$33,480 02
Less per centage allowed assessors and collectors, and remittances by County Courts, estimated at ten per cent.	3,348 00

Gives a nett revenue for the year 1864 of	\$30,132 02
-------------------------------------------	-------------

The amount in Auditor's Warrants issued during the year ending October 31, 1864, is	39,969 11
Auditor's Warrants in circulation October 31, 1863	4,470 71

Shows a total circulation during the current year, of	34,499 81
The amount redeemed at the Treasury is reported at	50,048 81
Is in circulation October 31, 1864	4,391 01

There is yet due to sundry accounts on the Auditor's books of unexpended appropriations the sum of six thousand, eight hundred and one dollar, fifty cents, nearly all of which is due for improvements on public roads and bridges.

Very respectfully, your obedient servant,
WM. CLAYTON,

Auditor of Public Accounts

G. S. L. City, Nov. 16, 1864.

GENTLEMEN:—Your committee to whom was referred the consideration and propriety of accepting the grant of land and condition attached thereto for the establishment of a college for the promotion of agriculture and the mechanic arts, as proffered to the several States and Territories, by Act of Congress, approved July 2, 1862, beg leave respectfully to report that, in their opinion, it is eminently advisable that this Territory avail itself of the advantages of the said Act of Congress, and would recommend the passage of the accompanying joint resolution.

A. P. ROCKWOOD,

Chairman of committee on Agriculture and Manufacture."

Said resolution was read, and,

On motion of Mr. Preston, the report of the committee was accepted, and the resolution laid on the table to come up in its order.

Said resolution passed its first reading.

The following message from the Council was received and read:

"The Council has this day appointed Messrs. E. Snow and E. T. Benson a special committee on postal affairs, to act with a like committee from the House on said subject. The motion referred to is herewith enclosed for your action thereon.

Very respectfully,
GEO. A. SMITH, President of the Council."

The motion passed by the Council was read.

Mr. Rowberry moved, that a committee of three be appointed from the House to co-operate with the Council committee on postal affairs. Seconded and carried.

The Speaker appointed Messrs. Maughan, Woolley and Rowberry said committee on the part of the House.

The minutes were called for read and accepted.

On motion of Mr. Preston, the House adjourned till to-morrow at 1 p.m.

DIRECTOR'S OFFICE,
Great Salt Lake City, Dec. 20, 1864. }

TO THE HON. JOHN TAYLOR,

AND THE HOUSE OF REPRESENTATIVES:

GENTLEMEN:—In compliance with an Act of the Legislative Assembly of the Territory of Utah, approved Jan. 20, 1862, we herewith transmit our report of the condition of the Utah Penitentiary, and an approximate estimate of the means necessary to defray the expenses of the ensuing year. Also the reports of the Warden, showing the disbursements made of your appropriation of six hundred dollars, for repairs, &c., and showing the number of convicts, their condition, when, for what, and how long sentenced; specifying how many Territorial, the fiscal affairs, and the avails arising from the labor of convicts.

Very respectfully,

Your obedient servants,

FERAMORZ LITTLE,
FREDERICK KESLER,
REUBEN MILLER.

MR. SPEAKER,

AND THE HOUSE OF REPRESENTATIVES :

GENTLEMEN:—The appropriation of six hundred dollars, made at your last session, for repairs on the Penitentiary, has been expended by the Warden in raising the outer walls, purchasing alarum-bells, &c., as per his report to us, herewith transmitted, showing a balance still due the Warden of \$426 63 for labor and materials, and of \$134 53 due George Handley for mason-work; and we would recommend an appropriation to cover the amounts.

As there was no appropriation made at your last session for guard and other expenses, it has been found impossible to properly guard the prisoners, and we would recommend an appropriation of five thousand dollars to defray said expenses for the ensuing year.

Very respectfully,

FERAMORZ LITTLE,

FREDERICK KESLER,

REUBEN MILLER.

HISTORICAL REPORT.

There were eight Territorial convicts in the Penitentiary at the last annual report, namely:—

Truelove Manhard, for robbery; term of sentence, fifteen years. Pardoned by His Excellency, Governor Doty, November 22.

John H. Winslow, for larceny; term of sentence, two years. Pardoned by His Excellency, Amos Reed, Acting Governor, Jan. 6.

George Wood, for murder; term of sentence during life.

Henry Angles, for larceny; term of sentence, three years. Pardoned by His Excellency, Amos Reed, Acting Governor, Feb. 24.

Joseph Brundage, for larceny; term of sentence, one year. Discharged, Feb. 24.

Verulam Dive, committed for grand larceny, Sep. 13, 1863; term of sentence, five years. Escaped February 8, 1864. Immediately on being advised thereof, I offered a reward to the police of Great Salt Lake City—for his apprehension and return, of one hundred dollars, or so much thereof as would be necessary to defray the expenses incurred: which was subsequently approved by your honors. The police were diligent, persevering and untiring in their exertions to arrest him, in which they were successful. On the third day of March following, said Dive was caught, and soon after died suddenly, and was buried in the convict cemetery.

The extra expense incurred in keeping Dive from the 24th of December to the time of his escape, including the proffered reward, amounted to \$393 75.

The city police have not, as yet, presented to me the bill of items of expense incurred in the arrest of Dive, although I have frequently called for it, but, for some cause to me unknown, it has not been presented; consequently I have not paid it, although I have had income in my hands to do so.

Thomas Watson, committed October 1, 1863, for the crime of larceny; term of sentence, two years. Discharged on a writ of habeas

corpus, March 4, 1864, by Hon. Elias Smith, Judge of Probate Court, for G. S. L. County.

William Darling, committed for larceny, Sep. 17, 1863; term of sentence, three years and six months. Discharged on pardon from His Excellency, Amos Reed, Acting Governor, March 4, 1864.

U. S. prisoners committed.

John Peters, committed March 15, 1864 for safe keeping awaiting trial before the U. S. third District Court, delivered to U. S. Deputy Marshal, April 4, re-committed as a convict for the crime of larceny, on the eighth of April; term of sentence, 15 days. Discharged April 23, 1864.

Jim, an Indian, committed March 23, 1864, for safe keeping awaiting trial before the U. S. third District Court. Delivered to U. S. Deputy Marshal, April 4, 1864.

Territorial convicts.

M. L. Eastnor, committed Sep. 16, 1864, for the term of one year for the crime of larceny. Pardoned by His Excellency, Governor Dwy, Nov. 23, 1864.

Levi Eac, committed 31st September, for carnally knowing and abusing a female child under ten years of age; term of sentence, 20 years. Escaped October 16, 1864. When last heard from, was making double quick time for the north country.

William Wilson, committed Sep. 31, 1864, crime—assault with intent to commit murder, term of sentence, three years.

Harriet Manning James, committed Sep. 31, for the crime of larceny; term of sentence, two years.

John L. Dwyer, committed Oct. 3, for the crime of larceny; term of sentence, six months.

Hugh W. Rose, committed Oct. 3, for the crime of larceny; term of sentence, three months.

The general health of the convicts has been good. The conduct and deportment of most of them has been commendable since their commitment.

As no appropriation was made by the last Legislative Assembly to defray the expense of the institution, now known as not laid in a public account. The expense of the institution is now on hand, as reported by the Board of Prisoners. It is not possible to pay on hand, nor to pay on account of the institution. All has been supplied from the private funds of the Board for several weeks.

It is necessary that some explanation is necessary.

Warden's Office,

G. S. L. City, Jan. 3, 1865.

To THE SPEAKER AND MEMBERS OF THE

HOUSE OF REPRESENTATIVES OF THE TERRITORY OF UTAH:

Gentlemen: I believe it my duty to you that convicts are not taken in the cells of the penitentiary without a good efficient night guard, which is not at present provided. Several attempts have

been recently made by the convicts to escape in the night time, in some of which they have been successful.

Most of the convicts that have recently been committed are supposed by me to be desperate characters, if such, the only safety is in an efficient night guard.

In view of the foregoing, I respectfully suggest that an immediate appropriation be made to defray the expenses accruing, and the proper officer be required to employ and put on duty a good and efficient night guard, that the sentences of the court may be fully executed, and the public secure from depredations of escaped convicts.

Respectfully submitted

By your Warden,

A. P. ROCKWOOD.

On motion of Mr. Preston, the communication from the Warden was referred to the committee on Penitentiary.

Mr. Long presented the following report from the Territorial Road Commissioner, which was read, and,

On motion of Mr. Wright, said report was ordered to be spread on the minutes, and sixty copies thereof printed for the use of the members of the Assembly.

TO THE HON. THE LEGISLATIVE

ASSEMBLY OF THE TERRITORY OF UTAH:

GENTLEMEN:—Agreeable to law, I have the honor to present the following report, of the amount expended upon the Territorial roads and bridges during the year.

The appropriation of four hundred dollars, made at the last session of the Legislative Assembly, has been expended on the Lower Salt Creek kanyon road, Juab county.

About two thousand dollars of the appropriation made to improve the road between Harmony and St. George, Washington county, has also been expended. The road is now being worked and the balance of the appropriation (five hundred dollars) will be expended for its improvement at an early day.

The appropriation of one thousand dollars, for the benefit of the new road around the point of the mountain, between Great Salt Lake and Utah counties, has recently been expended; and a road about nine feet in width has been made, with turnouts at several points along the route. It will require a further appropriation to complete the same, and as it is the great thoroughfare between the north and south, I recommend that an additional appropriation be made for its completion.

The appropriation of two thousand dollars to open a road between Huntville and Bear Lake Valley has been expended, and several contracts have since been made to build the road at different points along the route, and upon a careful investigation of the matter, and by estimate, it will require at least an appropriation of three thousand dollars to complete the road independent of a bridge across Blacksmith's fork—which is very difficult to ford at some seasons of the year. Should a bridge be desired across that stream, I recommend that a further appropriation be made of one thousand dollars for its erection.

The appropriations of 1863 and 4, for repairing the East Weber Bridge, amounting to three hundred and fifty dollars, was expended in the early part of the season, and the bridge at that time was put in good repair.

The appropriation of five hundred dollars for turning the Weber river at the bridge in Weber county has not yet been expended, but contracts have been made to complete the work.

The appropriations of 1863 and 4, amounting to one thousand dollars to assist in building a bridge across the Ogden river in Weber county has been expended; the bridge is in an unfinished state and it will require a further outlay for its completion.

The appropriation of six hundred dollars for opening the road between Franklin, Cache county and Park, Richland county, has been expended, and the road was opened very early in the spring.

The appropriation of one thousand dollars to improve the road in Silver Creek canyon has been expended, and in consequence of the great amount of travel over it, I was under the necessity of expending for repairs five hundred and four dollars and eighty-three cents, and respectfully ask that an appropriation be made to cancel that amount.

The Great Salt Lake City and Weber road now requires considerable labor to repair it, and I also recommend that measures be taken to have the road worked at an early day.

I also desire to call your attention to the State road running west from Great Salt Lake City—at the point it intersects the State road coming through the city north and south—across Jordan Bridge. In the course of the year it is almost impassable, and I recommend that some measures be adopted for its improvement, and to repair one of the abutments of Jordan bridge which was damaged by the flood of 1862.

In the spring of 1862 it was deemed necessary to make some permanent repairs and improvements on the State road between Great

Salt Lake city and Big Cottonwood; accordingly Pres. Brigham Young advanced eight thousand seven hundred and sixty-one dollars and fifty cents, which was expended in cutting cross and side ditches, turnpiking, &c. The labor was timely and judiciously applied and prevented the road from being seriously damaged by the floods in the summer following, and was the only outlet south and west from this city during that time; and I recommend that an appropriation be made to cancel the amount advanced.

Several appropriations have not yet been expended; among them, one for the road in the lower Weber canyon. There are several difficult points on the contemplated route for building that road, consequently the appropriation was deemed inadequate for the magnitude of the work.

Respectfully,

THEODORE McKEAN,

Territorial Road Commissioner.

G.S.L. City, Dec. 31, 1864.

Mr. Richards, chairman of committee to whom was referred, Petition from citizens of Juab county, praying for extension of jurisdiction of County Courts, &c., respectfully reported that, in their opinion, it is inexpedient to extend, by special enactment, the powers of the County Courts, as therein requested, and recommended that the petitioners apply through their Representative for corporate powers as a township or city, which would be more consistent with existing laws of the Territory.

On motion of Mr. Johnson, the report was accepted, and the committee discharged from the further consideration of said petition.

Mr. Thurber moved that the Territorial Road Commissioner's report be referred to the committee on Roads, &c. Seconded and carried.

The following was received and read:

"G. S. L. City, Jan. 3, 1865.

TO THE HON. JOHN TAYLOR, SPEAKER,

AND MEMBERS OF THE HOUSE:

Your committee, to whom was referred the subject of the Jordan Bridge near Lehi city, with instructions, beg leave to report that through evidence gathered from various sources, as well as correspondence with the mayor of Lehi city, which is herewith submitted, showing that, instead of there being any probability of said bridge

reverting to the Territory, the stockholders will soon become involved in debt to that extent that no human power can save them.

Therefore, in view of the enormous and increasing expense of said bridge, and feeling a due sense of regard for the present stockholders, respectfully suggest that the Act granting the right to build said toll bridge be repealed, and recommend the passage of the following bill for an Act.

WM. B. FARNES,
Chairman com. on Roads, &c."

REPORT

Of the Desert Agricultural and Manufacturing Society.

TO THE HON.

THE LEGISLATIVE ASSEMBLY OF THE TERRITORY OF UTAH:

GENTLEMEN:—During the year 1864 the board of Directors have at considerable expense erected a dwelling house for the garden near the society grounds, and partially leveled the ground of the garden, that it might be more easily irrigated; as the garden is still very uneven, much more leveling is needed before it can be profitably worked.

The present condition and future prospects not only of our own country at large, but the difficulties attending our mail facilities present before our view the vast importance of our preserving within ourselves pure seed of all vegetables.

We have found, by experience, that many of the seeds received from foreign countries, as well as from the States, have been very impure, especially the various kinds of sugar cane; thus far, we have found the Imphee to be the best and most pure of any we have raised; quite a quantity of which has ripened in the Desert Gardens during the present season, and is now on hand for sale.

The board wish to raise as great a variety of pure seed during the coming season, as possible, in their gardens, as they are located quite a distance from any other cultivated ground.

There has been received from the Commissioner of Agriculture, Washington, quite a variety of seeds which were distributed through the Territory. Many seeds and valuable cuttings directed to Utah have been lost by the way, in consequence of an Act of Congress last session, prohibiting seeds, cuttings, &c., passing through the mails to the Western Territories, except at the expense of letter postage. The board have continued to distribute, gratuitously, many valuable scions of the best kinds of fruit through the various settlements of the Territory. Hon. George A. Smith has rendered valuable service in this Department to the southern portion of the Territory.

The board have corresponded with the Department of Agriculture in Washington, to which Department monthly returns of the agricultural and horticultural statistics of the Territory have been forwarded as far as the board had the means of procuring the information; and, in return, the department have furnished the Territory, bi-monthly, reports of the agricultural statistics of the various States and Territories.

In consequence of the drouth and want of suitable buildings and means, the society did not hold an annual Fair and Exhibition in 1864, but trust they will be able to do so during the year 1865.

The receipts for the year, including produce on hand, and balance from last year, amount to \$2330 21
The expenditure 1787 45

Leaving a balance of 542 76

At a meeting of the board of Directors on the 11th inst., a list of accounts of indebtedness, amounting to \$67 due the present board; also \$175 83 due the former board of Directors were read over and the Treasurer instructed to charge the same to Profit and Loss and to cancel the accounts; this will reduce the apparent balance reported.

If agricultural and manufacturing societies and exhibitions are accredited auxiliaries and stimulants to home manufactures and National development in other States and Nations where exist commercial facilities so extensive and varied, and that too in times of peace when all are laboring to procure and exhibit the agricultural interest of the whole nation, how much more should the inhabitants of Utah foster and encourage these institutions and exhibitions, situated as we are, so remote and isolated from the manufacturing emporiums of the world, especially in time of a devastating war which is destroying the agricultural and manufacturing interests of the whole nation.

Should the society continue to exist and carry out the object of its creation, a suitable house, in which to hold the annual exhibitions, should be built and connected therewith, a depot for seeds, library and office established.

There should also be a system devised by which monthly returns of the varied products of Utah could be obtained that the society might be placed in possession of the agricultural and kindred statistics of our Territory, and be thereby enabled to furnish the same.

If the Legislature wish the society to carry out any of the objects herein named, an appropriation will be necessary for the accomplishment of the object. It is the opinion of the society that the Legislature should furnish the financial exhibit of the society.

W. WOODRUFF,
Chairman.

"Committee Room, G. S. L. City,
Jan. 18, 1865. }

TO THE HON. THE SPEAKER, AND MEMBERS OF THE HOUSE
OF REPRESENTATIVES OF THE TERRITORY OF UTAH, NOW IN SESSION:

GENTLEMEN:—Your committee on Indian Affairs, to whom was referred, Memorial and joint Resolution, relative to Indian depredations, &c., alleged to have been committed by the Sho-sho-nee and Coads-of Indians on the property of Leonard I. Smith, mail contractor, on route No. 14678, between Great Salt Lake city and Bannock city, Montana Territory, in June, 1864, to the value of twenty thousand, five hundred and sixteen dollars, (\$20,516).

Respectfully beg leave to say, and do herewith report, that we consider the testimony presented to establish the validity and justice of said account, is too feeble a tenure to attach a resolution of such importance, thereunto. And there being nothing presented to your committee to establish the fact that those depredations, if actually committed to the extent set forth in said Memorial, yet no proof is before your committee of the felony having been committed in the Territory of Utah, and must have been done in Idaho, Montana, or some other Territory to your committee unknown.

Therefore, we respectfully recommend that the Memorial and Resolution do not pass, and the presenter thereof have leave to withdraw

the same, and that he present the facts to the Territory having competent jurisdiction.

Respectfully,

J. C. WRIGHT,

Chairman."

On motion of Mr. Van Cott, the report was accepted, and the committee discharged from the further consideration of the subject.

The following was received and read:

"Committee Room, Jan. 18, 1865.

MR. SPEAKER,

AND MEMBERS OF THE HOUSE OF REPRESENTATIVES :

GENTLEMEN:—Pursuant to your instructions of the 11th inst., your committee beg leave to report as near as they can ascertain the number of acres of land to which this Territory is entitled by the several Acts of Congress appropriating lands from the Public Domain.

The number of acres of land for school purposes, is 3,805,440.

" " " University " 23,040.

" " " Agricultural College 30,000.

Your committee further report that this Territory is entitled to certain pre-emption rights when the Public land comes into market, as follows:

For the establishment of seat of Justice in each county or parish, 160 acres; provided, the proceeds of the sale of such land shall be appropriated for the purpose of erecting public buildings in the county or parish for which it is located, after deducting therefrom the amount originally paid for the same.

For town sites, whether they are incorporated or not, the respective authorities thereof have the right to enter, at the proper land office, and at the minimum price, the land so settled and occupied, in trust, for the several use and benefit of the occupants thereof, according to their respective interests; provided, that no one town site is entitled to exceed three hundred and twenty acres.

Your committee do not see any reason why the "Act to secure Homesteads to actual settlers on Public Domain" does not apply to the Territory of Utah, but at present is considered inoperative for the want of proper survey and land office with a register.

JOHN VAN COTT,

Chairman of committee on Public Domain and School Lands."

On motion of Mr. Thurber, the report was accepted, and ordered to be spread on the minutes.

A message was received from the Council, announcing their passage of (H. F. No. 10) "An Act to incorporate the Provo Kanyon Road company," with amendments.

REPORT

Of Territorial Superintendent of Common Schools.

To THE HON.

THE LEGISLATIVE ASSEMBLY OF THE TERRITORY OF UTAH:

GENTLEMEN:—In presenting his annual statistical table, which accompanies this, the Superintendent regrets being unable to furnish a more full and complete report.

Territories cannot justly be compared with older settled States without making a liberal allowance for newly-formed and isolated settlements, which frequently find their educational interests surrounded, for a season, with insurmountable obstacles. The wise policy, however, universally counseled, and generally adopted in this Indian country of building in forts and compact settlements, for mutual protection, has favored school interests.

While the Superintendent feels proud of his connection with a people whose innate sentiments are so favorable to the sustenance of schools, that under circumstances so adverse as the inhabitants of

this Territory have been placed under, schools are kept open as many months in the year, on an average, as in many of the oldest States in the Union; he is also alive to the fact that the principal county in the Territory—Great Salt Lake—has scarcely fifty per cent of the school population actually in attendance during the six months schools are kept open, and that the other counties have a less per centage of actual attendance. In view of this status the question arises, whether it would be advisable to give school districts the liberty to assess a tax which would be ample to educate the youth of the district.

The Superintendent, consulting public opinion, does not favor education by taxation, because, while the sentiments of the people are so favorable to education they are equally unfavorable to taxation. In conversing with many of our best citizens he has learned that the most deeply rooted feelings are entertained against high taxation. Many who, under present regulations, tax themselves from one to four per cent, and pay it willingly to the school teacher would feel very differently were the Territory to assume the assessment and collection of such a heavy tax; and while so many do this willingly the Territory is relieved from the payment of assessors and collectors, and delinquencies that under the best regulated systems are liable to occur.

A people endowed with fortitude, industry and intelligence sufficient to reclaim the Great American Desert, and whose inbred educational sentiments preponderate so highly that, independent of a single dollar or an acre of land from the Parent Government, in the short space of seventeen years, have inaugurated their present school system, can be trusted with safety, so far as the payment of school teachers are concerned. Furthermore, the Superintendent, in view of the present provisions for building school-houses and furnishing the same, and the increasing statutory provisions for the establishment of a school fund, has no misgivings, but feels assured that our Territory in a few years will present school statistics that will compare favorably with the foremost States in the Union.

One of the greatest obstructions to our educational interests has been a lack of uniformity of text-books. On this subject the Superintendent held a conference with the principal teachers in Great Salt Lake city, and agreed with them in recommending certain books. In accordance therewith he issued a circular to "Utah merchants and importers of school books," (a copy of which is appended to this report).

It is gratifying to find that the principal merchants in this city

have been governed in their purchases of school books by said circular, and those who have not imported the Willson series of readers, as recommended, have confined themselves to McGuffey's, which leaves us only two series of text books offered for sale in the Territory.

In relation to the establishment of text books for schools, and the general regulation pertaining to the time schools shall be kept open, and what holidays shall be observed, the Superintendent recommends that the Territorial and County Superintendents shall have the power to regulate the former, and the County Superintendents the latter, in their respective counties.

To obtain correct statistics in this Territory requires the most unflinching perseverance. Unless County Superintendents are determined to overcome every difficulty, a full and reliable table of statistics cannot be obtained.

The changing of County Superintendents is a serious impediment to the statistical department, and should be avoided unless in cases where circumstances justify a change. Rarely have new incumbents been able to become sufficiently acquainted with their districts and duties for the first year to enable them to present a correct report; not that there is anything approaching intricacy in our school system; but the office generally devolves on persons whose avocations in life are so onerous as to preclude the possibility of doing that justice to the appointment that they themselves often wish.

Two hundred copies of the Superintendent's last report having been published, he was enabled, through the courtesy of Hon. Amos Reed, Secretary of the Territory, to forward copies to the Departments of Public Instruction in the loyal States.

In return, there has been received from nearly all the States reports from the respective Boards of Education and Commissioners of Public Instruction; also the school laws of Pennsylvania, Indiana and Wisconsin, and the rules of the Board of Education of the city and county of San Francisco, California. These are preserved in the Superintendent's office as books of reference in educational matters.

Last year \$62.99 was appropriated for printing the usual forms for trustees and teachers, and the new form entitled, "School attendance sheet." The former were printed and issued in due time for the past year, the latter, in consequence of the delay in procuring suitable paper, was not got out in season; the paper, however, is now in the hands of the bookbinder for ruling and will be attended to so as to be ready for the year, 1865; a bill of particulars showing the amount expended on appropriation is appended to this report.

The law requires the Territorial Superintendent to furnish each

County Superintendent with a record ruled and headed as per form for school trustees and teachers: this cannot be done until an appropriation is made for the purpose.

Respectfully submitted by
ROBT. L. CAMPBELL,
Territorial Superintendent of Common Schools.

TO UTAH MERCHANTS AND IMPORTERS OF SCHOOL BOOKS:

The Superintendent of Common Schools, desirous of securing and establishing a uniformity of text books in our schools, and having consulted with the principal teachers in Great Salt Lake City in relation thereto, unites with them in recommending the following:

Wilson's series of Readers.

Wilson's Speller.

Colburn's Mental Arithmetic.

Ray's Arithmetic—third part and higher.

Pinneo's Grammar—primary and analytical.

Monteith's Geography—second, third and fourth parts.

Goodrich's History (late edition).

While Willson's Readers are those we wish to introduce, it is deemed advisable to encourage for this year, the Eclectic series, as there are many of them in use, and to exclude them at once from our schools would be disadvantageous to many.

ROBT. L. CAMPBELL,
Superintendent of Common Schools.

Mr. Richards presented, resolution to print and distribute the Laws and Journals, which was read and adopted.

The following was read:

EXECUTIVE OFFICE, UTAH,
January 19, 1865. }

THE HONORABLE JOHN TAYLOR, SPEAKER

OF THE HOUSE OF REPRESENTATIVES:

The bill entitled, "An Act to incorporate the Deseret Irrigation and Navigation Canal Company," which originated in the House, has been received by the Executive, and is not approved.

Feeling a deep interest, in common with all of our citizens, in the prosecution of this and other works of a similar character, deeming them essential to the permanent prosperity of the Territory, I take the liberty of suggesting the objections to this bill, which have occurred to me in the short time allowed for its examination.

Canals for irrigation being required in nearly all of the valleys in Utah, I avail myself of this occasion to suggest the propriety and utility of the passage of a general law,—such as may be found in the statutes of many of the States and in the Territories adjoining this, authorizing individuals to form companies for the construction of canals, wagon roads and railroads, and for mining and manufacturing purposes. Such a law will secure equal privileges and rights to all of our citizens, and promote the public interests. Special charters for these objects, which frequently contain more than the ordinary powers conferred on companies, are no longer regarded with much favor by the most enlightened Legislatures of our country; and I am particularly averse to increasing their number under our present temporary government, when it is expected the Territory will so soon become a State.

This bill appears to be imperfect in its provisions to accomplish the object of constructing a canal, and for its navigation and the use of its water for irrigation.

It gives to the corporators the power to charge a person who uses the water of the canal for irrigating land or other purposes, any sum they choose to assess for its use: or to deprive him of it altogether; when, by the 4th section, all the streams from the mountains are given to the company. The bill contains no limitation of this power, nor any adequate provision securing to every individual his equal rights. The company may permit one man to have water, and refuse it to another.

It fixes no rate of toll for navigating the canal; nor the depth and width of the canal; nor does it require the company to keep in it a constant supply of water for navigation or irrigation; nor to complete the work within a specified time or forfeit the charter.

The charter is *perpetual*; and it does not provide, that the Territory or State may take the canal at any further period, on payment to the corporators, of the cost of the work and interest; nor has it the usual provision, that the Legislature may at any time alter, amend or repeal it.

It does not provide for the appointment of commissioners to open books of subscription to the capital stock, by which every citizen would be secured the privilege of becoming a stockholder; and the investment of foreign capital invited, to aid in the construction of this great work, and thus relieve the people of a portion of the burthen of its construction. The corporators named in the bill are not required to pay any sum, whilst they hold all the stock—and vote upon it—except what is paid for by the persons taxed.

It gives the company the exclusive right to all streams, from their sources to their mouths, which rise in the Wasatch mountains and flow westward in Salt Lake county, towards the Jordan. These streams ought not to be interfered with, as there are many settlers upon all of them, who have certainly acquired vested rights in their waters which cannot—and ought not to be taken from them. It is the waters of Utah Lake which it is proposed to bring to Salt Lake City, and not the streams which are already appropriated by the inhabitants.

It deprives the people of Salt Lake City of the waters of City creek, and of the streams in Red Butte and Emigration kanyons, for ordinary purposes; and they would be compelled to pay the company any money it might demand for their use. And, after granting these streams, it does not require the termination of the canal at any point beyond, or north of them.

It authorizes the company to levy a tax of seven per cent. on all the property, of every description, of the people who reside between the canal and the base of the mountains, for its construction, whose farms cannot be irrigated from it; and upon all property in Salt Lake City and in the country bounded by the mountains and the Jordan. It is doubted whether the Legislature can delegate its power of taxation over a district of country to a company, for the exclusive benefit of the stockholders.

JAMES DUANE DOTY,
Governor.

Mr. Brizzee, chairman of committee appointed to act with a committee of the Council, to examine the Territorial Treasurer's and, Auditor's books and papers, reported that, in accordance with instructions, the joint committee had examined the Treasurer's books,

reports and redeemed Auditor's Warrants, and found the same to agree, and have destroyed said warrants.

The committee has examined and compared the Auditor's books, vouchers, issues of warrants and reports, and find all correct.

On motion, the report was accepted.

Mr. Preston, chairman of committee on Roads, &c., reported that, in their judgment, it will not be advisable to legislate at present upon the subject matter contained in "An Act authorizing Henry W. Brizzee, et al, to build a toll bridge across the Weber river, in Summit county.

Also reported adversely to appropriating Territorial funds, to be expended on the Chalk Creek Canyon road.

On motion of Mr. Long, the report was accepted, and the committee discharged from the further consideration of said subject.

The following was read:

"The Council does not concur in (H. F. No. 7) "An Act in relation to cheats, swindlers and other fraudulent persons and have passed in lieu thereof, (C. F. No. 17) "An Act in relation to defrauding and cheating or swindling," which is sent for your action.

Very respectfully,

GEO. A. SMITH,
President of the Council."

"An act to incorporate Irrigation Companies," passed its three readings.

Mr. Callister, chairman of committee, to whom was referred petition of the citizens of Fairview, Iron county, asking for the organization of a new county, reported that they considered it too late in the session to obtain the requisite information as to the practicability of organizing said county.

On motion of Mr. Long, the committee were discharged from the further consideration of the subject.

A bill for "An Act amendatory to the Acts regulating the Penitentiary," was read the first and second times.

Said bill was read the third time by its title, and so passed.

(C. F. 17) "An Act in relation to defrauding and cheating or swindling," was read the second time.

Said bill was read the third time by its title, and so passed.

Mr. Richards moved, that the committee on Claims and Appropriations be instructed to incorporate the following sums in the Territorial Appropriation Bill, to be expended under the direction of the Superintendent of Common Schools.

For services for the year 1864, \$200.

To furnish records for each County superintendent, headed according to forms, for trustees and school teachers, and to furnish County superintendents their forms of report, as provided in the Act consolidating the School laws, \$100.

Stationery for the Superintendent's office for the years 1864-5, \$50. Seconded and carried.

Mr. Farr, chairman of Judiciary committee, to whom was referred, (H. F. 12) "An Act governing writs of attachments and garnishments," reported the same back with amendments, and recommend the passage thereof.

Said bill passed its three readings, and was sent to the Council for their action thereon.

Adjourned till 6½ p.m.

6½ p.m.

House re-assembled as per adjournment.

Roll called. Quorum present.

Mr. Richards moved, that the committee on Counties be instructed to ascertain if the counties Sevier and Piute are provided by law for representation in the Territorial Assembly, and if not, that said committee report a bill providing for them representation in the next annual session of the Legislature. Seconded and carried.

The following was read:

"The Council concurs in your amendments to the "Act incorporating Irrigating companies."

They do not concur in (H. F. No. 24) in relation to taxes, and have appointed Councilor Carrington a committee of conference to meet with a like committee from the House on the subject.

The Council concurs in (H. F. No. 30) also "Joint Resolution."

The Council has also passed (C. F. No. 18) "An Act granting to the Overland Mail company, &c."

They have also concurred in "Resolution regarding printing Journal, Laws, &c."

Yours respectfully,

Geo. A. SMITH,

President."

On motion of Mr. Preston, a committee of conference was appointed by the House on said bill (H. F. 24).

The Speaker appointed Messrs. Thurber and Woolley said committee.

(C. F. 18) a bill for "An Act granting to the Overland Mail com-

pany the right to construct a graded road across Dugway mountain, and to collect toll for the use of the same," was read, and,

On motion of Mr. Richards, referred to the committee on Roads, Bridges and Ferries.

Mr. Farr, chairman of committee on Judiciary, to whom was referred (H. F. 1) "An Act for the better regulation of stray pounds, and for other purposes," reported back said bill, deeming it unnecessary to legislate thereon during the present session.

On motion of Mr. Thurber, the committee were relieved from the further consideration of said bill.

The following was read:

"The Council has passed the accompanying bill (C. F. 19) "An Act to extend the north boundary line of American Fork city," and is respectfully submitted for the action of your honorable body.

Very respectfully,

GEO. A. SMITH,
President of the Council."

Said bill (C. F. 19) was read the first and second times.

Said bill was read the third time by its title, and so passed.

Minutes were called for, read and accepted.

On motion of Mr. Richards, the House adjourned till to-morrow at 10 a.m.

On motion of Councilor Carrington, was ordered to be spread on the minutes, and also that the editors of this city be requested to publish it.

MR. PRESIDENT AND SPEAKER,

AND MEMBERS OF THE LEGISLATIVE ASSEMBLY, IN JOINT SESSION:

GENTLEMEN:—Your committee, to whom was referred the subject of Irrigation of lands in the various counties of the Territory, have prosecuted their labors, conjointly, and therefore beg leave to present this joint report of their doings in the premises.

In order to obtain as complete and accurate information as was practicable upon this subject, your committee issued the necessary blanks to the various water-masters throughout the Territory in the early part of this session, many of which blanks have been filled and returned, giving the lengths, widths, depths, and inclinations of the various canals conducting water from its original channels to the fields irrigated, together with the cost thereof; a consolidated tabu-

lar statement of which from each county is herewith submitted, as part of this report.

Approximate estimates of the kinds and quantities of crops raised are also received from various portions of the Territory, but are too incomplete to afford an adequate statement of the aggregate of crops raised in the Territory.

By the accompanying statistics it appears that there has been constructed, at public expense, no less than nine hundred and twenty-three miles and one hundred and ninety-two rods of irrigating canal, at the average or mean width of five feet and seven inches and depth of two feet, conveying water for the irrigation of one hundred and sixty-six thousand, nine hundred and seventy acres of land of every variety of soil and at an aggregate cost of one million, five hundred and eighty-one thousand, nine hundred and forty-five dollars. Beside those already completed there are extensive works in Great Salt Lake county in progress, at an estimated cost of one million, ten thousand dollars, and in Davis county, as estimated, at three hundred thousand dollars, and also one in Utah county, estimated at sixty thousand dollars—all which are shown in the accompanying table.

From the information your committee have in their possession it is estimated that the cost of canals and water-ditches constructed by private enterprise for the distribution of the water upon the lands and crops will nearly or quite equal the amount expended on the main canals.

Your committee have special pleasure in reporting the initiatory step for accumulating information upon this subject vital to the agricultural interests and the permanent prosperity of the inhabitants of this Territory, and respectfully recommend an appropriation of one thousand dollars, to be placed at the disposal of the D. A. & M. Society for the acquisition of such information on the subject of irrigation at home and abroad as shall best promote the agricultural interests of the Territory.

Commissioner Newton, of the Agricultural Department at Washington, in his bi-monthly report for September and October last, says, "During the present season there is no portion of the Union that has made returns indicating as favorable condition of crops as Utah." We ask by what means has the desert wilderness of the Great Basin of North America been brought thus to compare with the wealthiest and most fertile States of the nation? It is by irrigation—a system of labor and expense, of which the world are ignorant, and with which the people of Utah are yet but partially acquainted.

By irrigation, Utah is what she is: without irrigation she must

soon relapse to what she was in 1847, when our pioneers first entered this Valley.

Concerning that portion of the Governor's Message, referred to your committee, suggesting a Memorial to Congress for an appropriation of waste lands, &c., your committee are at a loss what portion of the waste lands of Utah to petition for, as the whole Territory was composed of waste lands until rendered fertile by its present citizens, and most respectfully submit that, in their opinion, it would be more proper to ask Congress to appropriate the Territory of Utah to partially reimburse actual settlers for expenses already incurred in reclaiming its waste lands.

Respectfully submitted,

The following was received and read:

"Committee Room, Jan. 19, 1865.

MR. SPEAKER AND MEMBERS OF THE

HOUSE OF REPRESENTATIVES:

GENTLEMEN:—Agreeable to the requirements of law and usage we herewith submit for your consideration a report, setting forth the transactions and condition of the Utah Penitentiary for the year ending December, 1864.

We are happy to state that the business of the prison during the past year has been, under the circumstances, of the most prosperous character. The debts previous to 1863 were very heavy, as reported from time to time in years previous: these debts, as well as those contracted since, were all paid, and the prison did not owe anything prior to the first of the year 1865.

There has been labor performed by the convicts advantageously, and articles manufactured which have afforded a good profit and found a ready sale, by which means we may say, as to the financial affairs, the prison is in a solvent condition. It is now, and has been for some time, able to meet its liabilities at maturity, and, in connection with the Directors and Warden, is able to preserve its credit with business men, and make its purchases better than formerly.

For financial and historical information, for want of time, we refer you to the Directors' and Warden's reports.

In regard to the motion of the hon. member from Davis (Mr. Haight), referred to committee, the purport of which was, in substance, to make a death penalty Act to convicts who should escape from prison, we cannot say that we feel prepared to sanction such an extraordinary act, and respectfully beg leave to be excused from the work of introducing such a bill for the action of the Legislature, as our Statute is specific, and plainly defines for what crimes a person shall suffer death. We deem it impolitic to amend the present criminal code so as to conform to the words and spirit of said motion.

For the purpose of preventing the escape of convicts, the Warden, with the approbation of the Directors, may employ, not exceeding three able-bodied and trusty men, as prison guards, who shall alternately, under the direction of the Warden, guard the prisoners, as well by night as by day—for whose pay the Territorial Treasury is responsible—at such rates and prices as shall be agreed upon by the Directors and Warden with the guards, so far as the means appropriated by this Legislature for that purpose may extend.

It is highly gratifying to your committee to learn that Judicial and Executive authority has greatly subsided in the exercise of that power so unjustly and unwarrantably exercised by the predecessors of the present incumbents of those offices in extending pardon and relief to convicts committed for the highest offences and crimes known to the laws of the United States, this Territory, or to civilized man, contrary to the known wishes of all the peaceable and law-abiding citizens of this Territory.

In our judgment, the fewer pardons the fewer convictions. It is possible that Executive clemency might be used in character and extent so as to make juries careless or hasty to convict, or not to convict, from the impression that their verdict will be reviewed under an application for pardon. In the exercise of Executive prerogative, in this respect, for the last year we believe the exercise thereof has been consistent with honesty and sincerity.

It is a matter of doubt whether any further appropriation by the General Government will ever be made sufficient to complete the building according to the original design, or even put in good repair and safety that portion already commenced, although it is so much needed.

It may be said of the present condition of the prison, that it is in a rapid state of decay, and had it not been for the amount expended in repairs last year, at the expense of the Territory, it would now have

been entirely unfit for the reception of convicts—with a view to their being safely confined therein, and it is believed that a further appropriation of, at least, \$5000 is necessary to be made by the present Legislature for improvements and repairs of the building, which now demands immediate attention, and, after this sum is judicially and economically applied under the direction, and with the unrivalled skill for financeering of the Directors and Warden, we apprehend the patch will greatly fail of being commensurate with the hole. This amount, however, is merely suggested for the careful consideration of the House, and your committee recommend that it be increased rather than diminished, and the aforesaid sum of \$5000 for repairs, and \$3000 for guards and other contingencies, be incorporated in the Territorial Appropriation Bill to be used as aforesaid; also the sum of \$1000 for Warden's salary for 1864.

With the increase of population so is the increase of crime, and, with a view to provide and establish proper modes of punishment for criminals sentenced to the Penitentiary, we respectfully recommend the passage of an act.

Your committee, were it not that the session is so near its close, would respectfully ask further time to enable them to more fully perfect their report, and, believing all necessary facts are herein contained, they are now very respectfully submitted by your committee on Penitentiary.

J. C. WRIGHT,
Chairman."

Mr. Thurber moved, that the report be accepted, and that the recommendation for appropriation, be referred to the committee on Claims and Appropriations, Seconded and carried.

The following was received and read:

(H. F. 29) "An Act to incorporate the Ogden Kanyon Road company,"

(H. F. 24) "An Act prescribing the manner of assessing and collecting Territorial and county taxes, and for other purposes," have both passed the Council, with amendments. Do you concur in the amendments?

(H. F. 31) "An Act amendatory to the Acts regulating the Penitentiary," is herewith returned, not concurred in.

Very Respectfully,

GEO. A. SMITH,
President of the Council."

Said bill (H. F. 29) was read as amended, and the House concurred in the amendments thereto.

(Said bill (H. F. 24) "An Act prescribing the manner of assessing and collecting Territorial and county taxes," was read as amended, and,

On motion, a committee of conference was appointed on said bill.

The Speaker appointed Messrs. Wright and Maughan said committee of conference.

The following was received and read:

Mr. Preston, chairman of committee on Roads, &c., to whom was referred (C. F. 18) "An Act granting to the Overland Mail company the right to construct a graded road across Dugway mountain, and collect toll for the use of the same," respectfully reported the same back, and recommended the passage thereof.

Mr. Callister, chairman of committee on counties, to whom was referred the motion of Mr. Richards yesterday, respectfully submitted accompanying Resolution, which was laid on the table.

Mr. Van Cott moved, that the committee on Revenue be instructed to make diligent inquiry, and report at this session, whether the money is paid into the Territorial Treasury for the benefit of common schools, as contemplated in the Acts of January 22, 1864—granting toll road in Tooele county; toll bridge across Thorn's fork of Bear river, and ferry or ferries across Bear river, and a bridge across the Malad. Seconded and carried.

(C. F. 18) "An Act granting to the Overland Mail company the right to construct a graded road across the Dugway mountain, and collect toll thereon," was read the first and second time, and amended.

Said bill was read the third time by its title and so passed.

Joint Resolution, attaching Sevier and Piute counties to Sanpete and Beaver counties, for representation, was read the first and second times, and adopted.

The following was received and read:

"EXECUTIVE OFFICE, Utah, }
